

**Date-**

**Title of the Assignment-**

**Answer the following questions in numerical order:**

- 1.
- 2.
- 3.

**Write a short (5 sentence paragraph) of how you can use what you learned outside of school.**

**EXAMPLE:** I learned from the website that I have many types of mammals that live around me. I can identify these mammals by some of their physical characteristics that were covered in the website. I also learned that there is an amphibian living in my basement that can also be identified through its characteristics. The mammals that live near me are herbivores and omnivores based on what they eat, and the shape of their teeth. I happen to be an omnivore, because there is nothing better than a big steak and some garlic mashed potatoes!

**Draw a line at the end of this closure.**

---

**Repeat for the next assignment:**
